CDMX5110SM

10m DMX512 cable XLR 5-pin male-male shielded nickel body brown caps

DESCRIPTION

10 m DMX512 cable with 5-pin male-to-male XLR connectors, ensuring reliable signal transmission for lighting control. Its shielding protects against interference in industrial environments, guaranteeing optimal digital data integrity.

ADVANTAGES

- Reliable DMX512 signal transmission for lighting control
- Male-male 5-pin XLR connectors ensuring standard compatibility
- Effective shielding against interference in industrial environments
- 10 m length suitable for temporary and fixed installations
