ECP2601SET

TRANSMITTER / RECEIVER

DESCRIPTION

POEC transmitter/receiver kit enabling Ethernet transmission over existing coaxial cable without new wiring. Compatible with standard broadcast infrastructures, it maintains internet signal quality in POE transmission. Easy installation with integrated POE power supply for efficient management of connected equipment.

ADVANTAGES

- Ethernet transmission over existing coaxial cable without new wiring
- Compatible with standard broadcast infrastructures
- Maintains internet signal quality in POE transmission
- Easy installation thanks to integrated POE power supply
