Product Environmental Profile

Metal standard floor boxes system for raised or concrete floors

■ LEGRAND'S ENVIRONMENTAL COMMITMENTS

- Incorporate environmental management into our industrial sites
- Of all Legrand sites worldwide, over 85% are ISO 14001-certified (sites belonging to the Group for more than five years).
- Offer our customers environmentally friendly solutions

Develop innovative solutions to help our customers design more energy efficient, better managed and more environmentally friendly installations

• Involve the environment in product design and provide informations in compliance with ISO 14025

Reduce the environmental impact of products over their whole life cycle.

Provide our customers with all relevant information (composition, consumption, end of life, etc.).

■ REFERENCE PRODUCT **■**

Function	Connect a workstation remote from the wall to the energy and communication networks for 20 years, via 12 modules support frame for Mosaic Programme or Arteor mechanisms wiring accessories.					
Reference Product						
	Cat.No 0 880 03	Cat.No 0 880 20	Cat.No 0 880 80	Cat.No 0 880 81		
	Standard floor box system for concrete floor : Stainless steel lid and trim 8/12 mod + 12 mod horizontal support kit + Universal adjustable backbox for screed height 55 to 150 mm.					

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the company.

■ PRODUCTS CONCERNED

The environmental data is representative of the following products:

Catalogue Numbers

The full Legrand Standard version metal floor boxes systems (for raised or concrete floors) as presented in all relevant catalogues - details available on request to customer service team.

Product Environmental Profile

Metal standard floor boxes system for raised or concrete floors

■ CONSTITUENT MATERIALS I

This Reference Product contains no substances prohibited by the regulations applicable at the time of its introduction to the market. It respects the restrictions on use of hazardous substances as defined in the RoHS directive 2011/65/EU.

To the Lance Contract of	
Total weight of	
Reference Product	10655 g (all packaging included)
	3

Plastics as % of weight		Metals as % of weight		Other as % of weight		
ABS	4.0 %	Steel	66.4 %			
Other plastic	2.4 %	Copper alloys	0.1 %			
PA	0.8 %	Other metal	< 0.1 %			
PVC	< 0.1 %					
				Packaging as % of weight		
				Paper	17.5 %	
				Wood	8.8 %	
				PE	< 0.1 %	
Total plastics	7.2 %	Total metals	66.5 %	Total other and packaging	26.3 %	

Estimated recycled material content: 38 % by mass. For the system in brass finish for lid and trim: steel = 65.4 % and copper alloys = 1.1 %, other raw materials % are unchanged.

■ MANUFACTURE ■

This Reference Product comes from sites that observe the applicable legislation for industrial sites.

■ DISTRIBUTION **■**

Products are distributed from logistics centres located with a view to optimize transport efficiency. The Reference Product is therefore transported over an average distance of 1264 km by road, 842 km by sea and 21 km by air from our warehouse to the local point of distribution into the market in all around the world.

Packaging is compliant with applicable regulation. At their end of life, its recyclability rate is 98 % (in % of packaging weight).

■ INSTALLATION ■

For the installation of the product, only standard tools are needed.

USE

Under normal conditions of use, this product requires no servicing, no maintenance or additional products.

Product Environmental Profile

Metal standard floor boxes system for raised or concrete floors

■ END OF LIFE I

The product end-of-life factors are taken into account during the design phase. Dismantling and sorting of components or materials is made as easy as possible with a view to recycling or failing that, another form of reuse.

• Recyclability rate:

Calculated using the method described in technical report IEC/TR 62635, the recyclability rate of the product is estimated at 97 %. This value is based on data collected from a technological channel operating on an industrial basis. It does not pre-validate the effective use of this channel for the end of life of this product.

Separated into:

plastic materials (excluding packaging)
metal materials (excluding packaging)
other materials (excluding packaging)
packaging (all types of materials)
26 %

■ ENVIRONMENTAL IMPACTS **■**

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use and end-of-life. It is representative from worlwide marketed products.

For each phase, the following modelling elements were taken in account:

Manufacture	Materials and components of the product, all transport for the manufacturing, the packaging and the waste generated by the manufacturing.			
Distribution	Transport between the last Group distribution centre and an average delivery point in the sales area.			
Installation	The end of life of the packaging.			
Use	 Product category: PSR-0003-ed1.1-EN-2015 10 16 «Cable management solutions -3.2.3.1. Non-equipped service poles, service posts and multi-outlets extension». Use scenario: no energy consumption during the 20 years working life. This modelling duration does not constitute a minimum durabilty requirement. Energy model: Electricity Mix; France - 2002. 			
End of life	The default end of life scenario maximizing the impacts.			
Software and database used	FIME V5 and its database «CODDE-2015-04»

Product Environmental Profile

Metal standard floor boxes system for raised or concrete floors

■ SELECTION OF ENVIRONMENTAL IMPACTS (CONTINUED)

The environmental impact of the system, described in this document and different of the Reference Product, can be estimated by weighting the environmental impacts of the Reference Product by the corresponding factors (see under). Impacts for brass finish or stainless steel finish systems are the same.

Designation	Correction factor to apply to each indicators, for each life cycle steps or to the total life cycle
Standard floor box system 12 modules for concrete floor - metal lid & trim, adjustable horizontal mounting, universal adjustable backbox	1.00
Standard floor box system 18 modules for concrete floor - metal lid & trim, adjustable horizontal mounting, universal adjustable backbox	1.04
Standard floor box system 24 modules for concrete floor - metal lid & trim, adjustable horizontal mounting, universal adjustable backbox	1.09
Standard floor box system 8 modules for concrete floor - metal lid & trim, vertical mounting, universal adjustable backbox	0.95
Standard floor box system 12 modules for concrete floor - metal lid & trim, vertical mounting, universal adjustable backbox	0.98
Standard floor box system 16 modules for concrete floor - metal lid & trim, vertical mounting, universal adjustable backbox	1.01
Standard floor box system 12 modules for concrete floor - metal lid & trim, adjustable horizontal mounting, universal auto-adjustable backbox	0.56
Standard floor box system 18 modules for concrete floor - metal lid & trim, adjustable horizontal mounting, universal auto-adjustable backbox	0.65
Standard floor box system 24 modules for concrete floor - metal lid & trim, adjustable horizontal mounting, universal auto-adjustable backbox	0.75
Standard floor box system 8 modules for concrete floor - metal lid & trim, vertical mounting, auto-adjustable backbox	0.52
Standard floor box system 12 modules for concrete floor - metal lid & trim, vertical mounting, auto-adjustable backbox	0.58
Standard floor box system 16 modules for concrete floor - metal lid & trim, vertical mounting, auto-adjustable backbox	0.67
Standard floor box system 12 modules for raised floor - stainless steel lid & trim, adjustable horizontal mounting	0.37
Standard floor box system 18 modules for raised floor - stainless steel lid & trim, adjustable horizontal mounting	0.42
Standard floor box system 24 modules for raised floor - stainless steel lid & trim, adjustable horizontal mounting	0.49
Standard floor box system 8 modules for raised floor - stainless steel lid & trim, vertical mounting	0.33
Standard floor box system 12 modules for raised floor - stainless steel lid & trim, vertical mounting	0.37
Standard floor box system 16 modules for raised floor - stainless steel lid & trim, vertical mounting	0.44
