Nexans MOBIWAY MOB

Nexans MOBIWAY MOB, simple solution for building installers worldwide

Click ! Lock ! Roll !

AVANTAGES

Nexans offers a new and innovative reel unwinding system : **Nexans MOBIWAY MOB**.

Nexans Mobway MOB Kit consists of :

- **A new reel**, in lengths, from 150m to 300m, depending on the cable cross section,
- **2 flanges** that clip onto the MOBIWAY MOB reels.

The benefits :

- Facilitates transport
- Faster unrolling
- Several cables can be pulled at the same time

Practical and solid, the Nexans **MOBIWAY Mob** kit makes it **easy to transport** the Mobway Mob reels thanks to its **more ergonomic** handle than the first version. Its new anti-slip pads provide better stability even at the end of a pull. A **clip-on system** for the Mobway Mob kits allows **several reels to be unwound simultaneously**.

Le kit Mobway MOB is **made in France**, and is reusable.

INSTALLATION

Transport and unroll your cable with 2 clips

- **Snap** the MOBIWAY™ MOB **flanges** onto the MOBIWAY™ MOB **drum** & **lock** them into place
- Open the handles to **easily carry the drum**, by one or 2 people depending on the weight left on the drum
- **Put the drum down** and click the handles into the standing position
- **Unwind the cable**
- When the drum is empty, simply **unlock the MOBIWAY™ MOB flanges** and **reuse them on a new MOBIWAY™ MOB drum**.

CHARACTERISTICS

Dimensional characteristics

Approximate net weight	2.2 kg
Height	385 mm
Width	370 mm
