## CONDENSATE REMOVAL PUMP

This pump has been designed for the removal of pH neutral air conditioner condensate water only. To do so this pump must be installed and connected to the correct power supply by a qualified engineer/electrician in accordance with these instructions and local electrical codes and regulations.

## IMPORTANT

- 1 This appliance should ONLY be fitted and serviced by a competent & qualified HVAC/R installer in accordance with these instructions and all relevant local and national electrical codes and regulations.
- 2 This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- 3 Children shall not play with the appliance.
- 4 If the Supply Cord is damaged the pump must be switched off to avoid a hazard. The whole pump will need to be replaced.
- 5 Switch off the isolator to isolate the pump from the electrical supply or disconnect from the electrical supply following the National wiring rules.
- 6 Always disconnect the pump from the electrical supply before assembling disassembling or cleaning.
- 7 This appliance is intended for indoor use only and must not be allowed to freeze.
- 8 Saturate foam filter with water before use.

### WEEE directive warning

#### Meaning of crossed out wheeled dustbin

Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your local government for information regarding the collection systems available. If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being. When replacing old appliances with new ones, the retailer is legally obligated to take back your old appliance for disposals at least free of charge.

#### Mini Blanc : Univolt 100-250VAC 50/60Hz

Power Supply	0.16A / 5W
