Makita 18v LXT Battery Board

Holds 3 Batteries

Compatible with Makita 18v LXT Batteries

StealthMounts Makita LXT Battery Boards can securely store up to three batteries. Perfect for mounting to the wall, under a shelf or clipping to your bag. Batteries can be mounted from either direction and won't fall out when being transported. Excellent for use in Ute's, vans and workshops. The board has four countersunk holes and two blind holes opening up more mounting and storage options. Attach a Bench Belt to the rear of your Battery Board and you have instant storage and transportation for your impact driver or tape measure. Attach Mounting Feet and clip to your Packout System. The possibilities are endless.
