Installing Left and Right Hand Corner Brackets to S-Type Cabinets

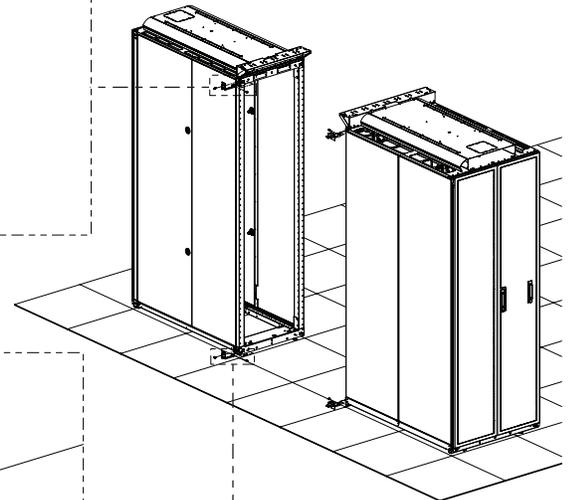

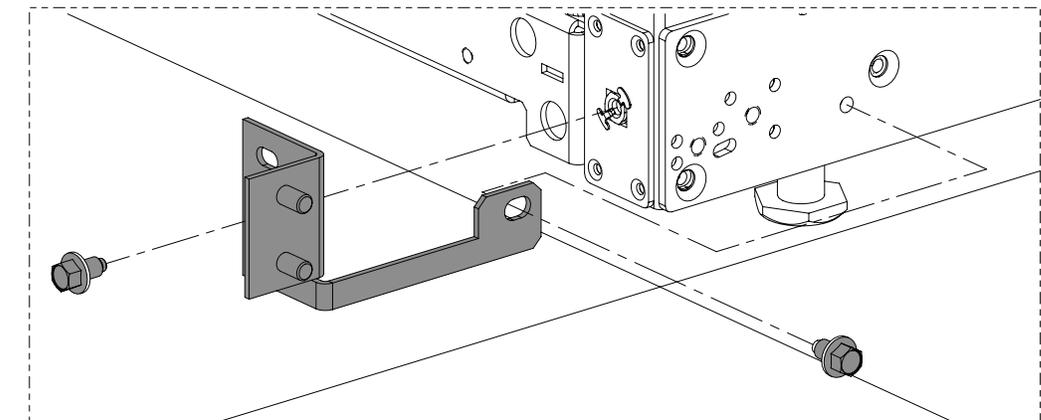

- 1 Tap the knock-outs out from the top and bottom of cabinets where the End of Row Cap will be installed. Make sure the knock-out tab is removed fully from the opening.

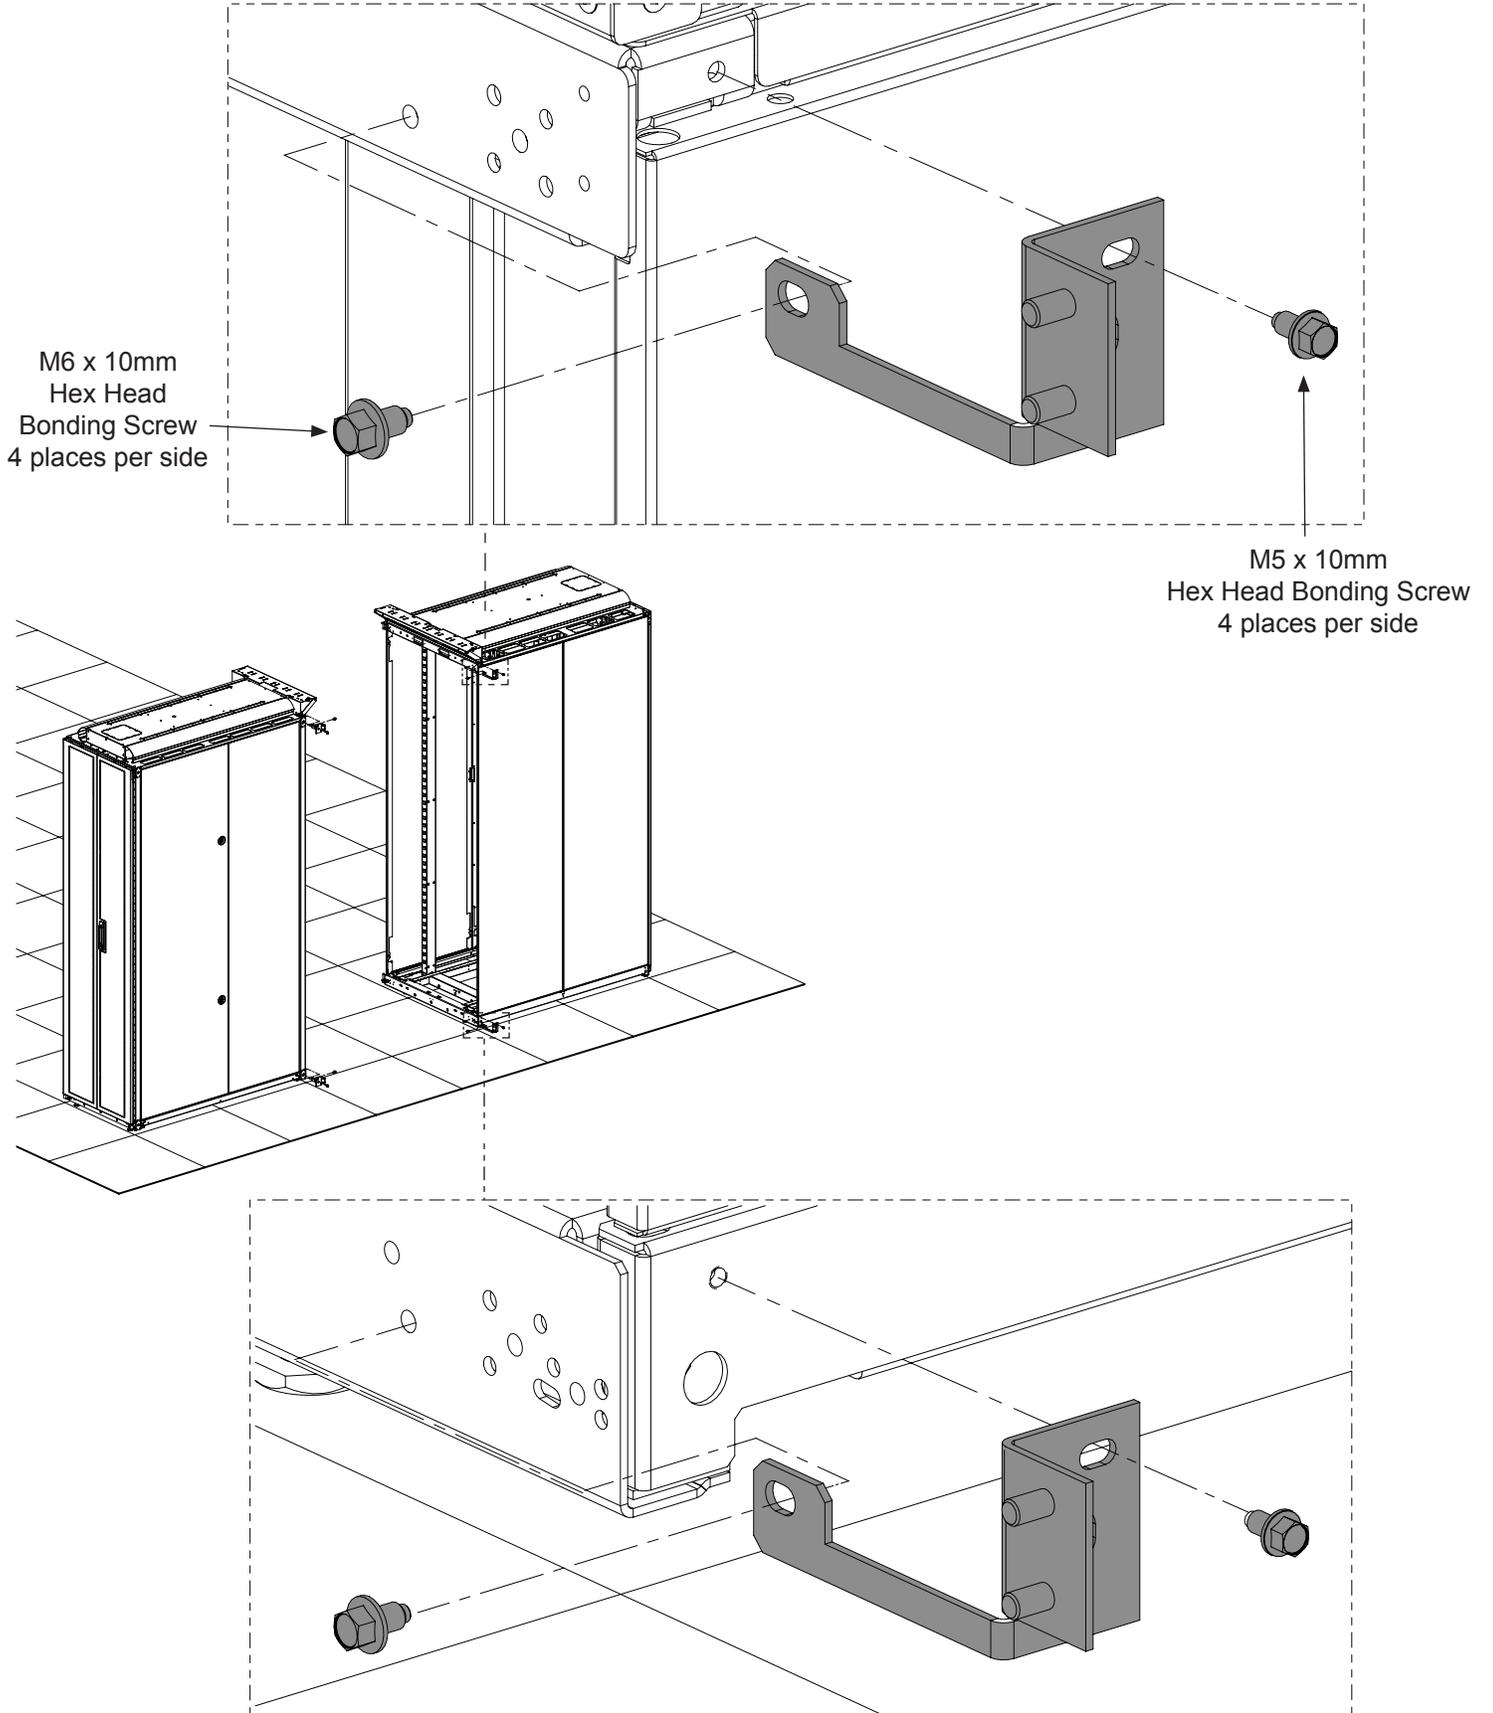

- 2 Install Cage Nuts in the knock-out openings and turn 1/4 turn to secure.

M6 x 10mm
Hex Head Bonding Screw
4 places per side

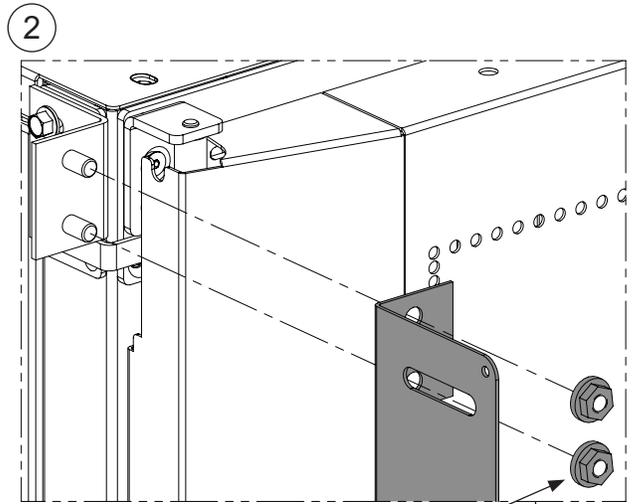

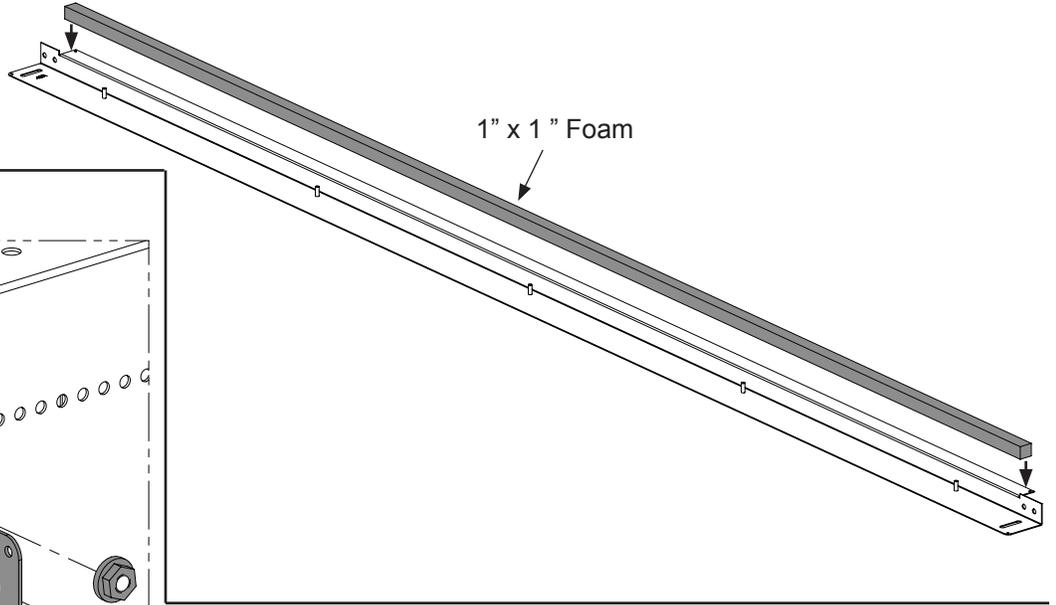

Installing Left and Right Hand Corner Brackets to N-Type Cabinets

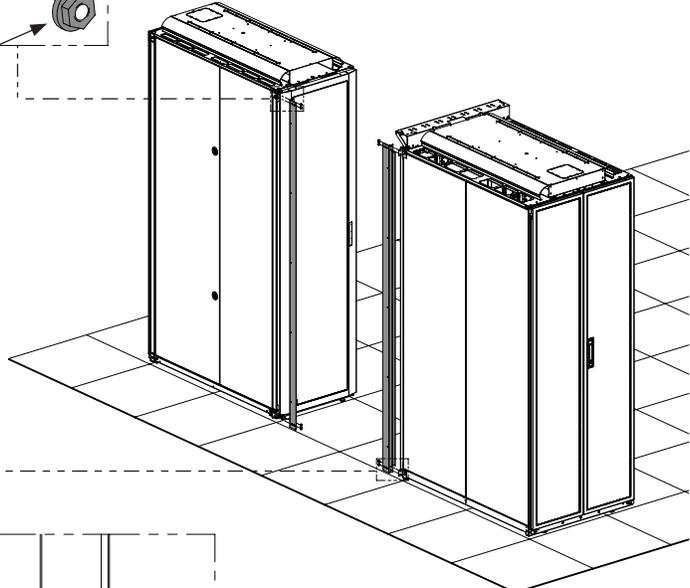

Installing Left and Right Hand Columns to Cabinets

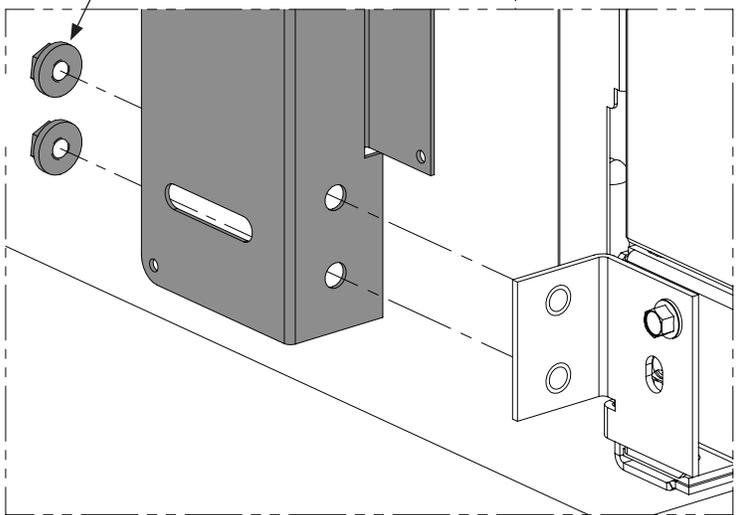

1 Install 1" x 1" Foam Seal to both Columns

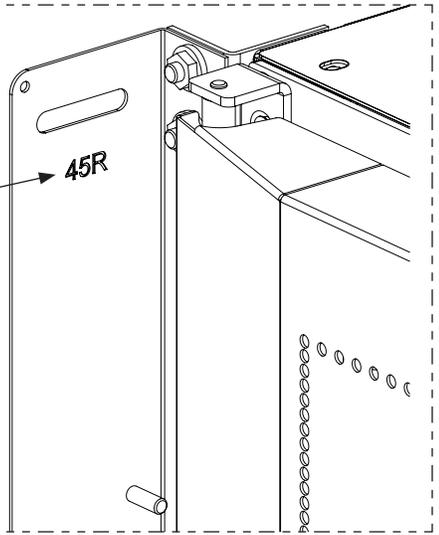

M6 Serrated Flange
Hex Nut
2 places per side

M6 Serrated Flange
Hex Nut
2 places per side

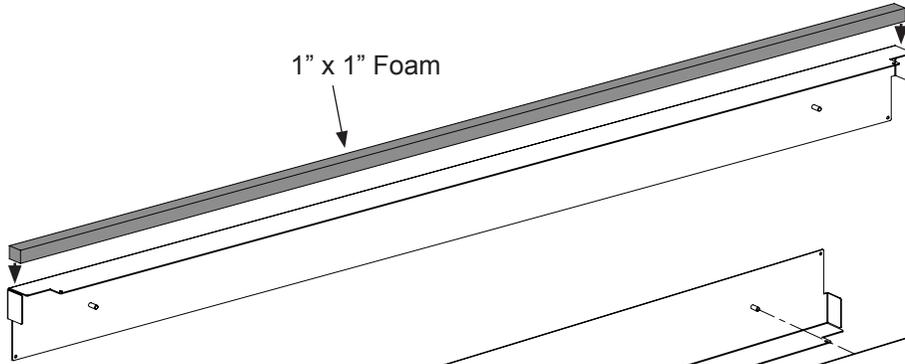

Note the height and side stamping. This stamping is always located at the top and contains a 'R' or 'L' to determine the side of containment, as viewed from the inside of the containment that it will attach to. 'R' for the right side and 'L' for the left side.

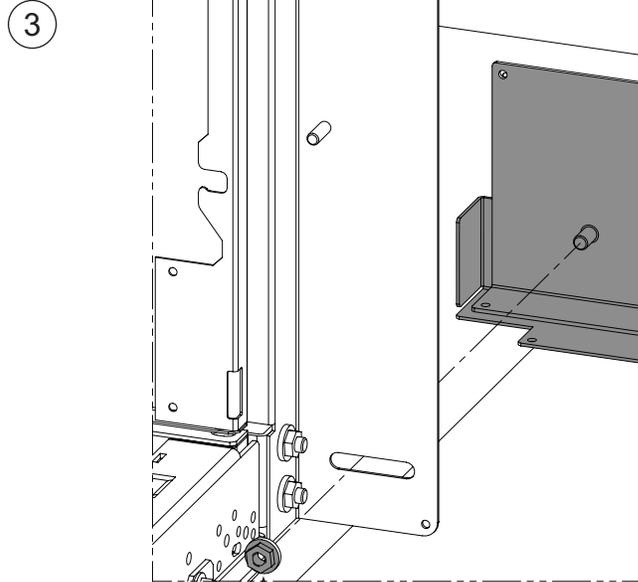

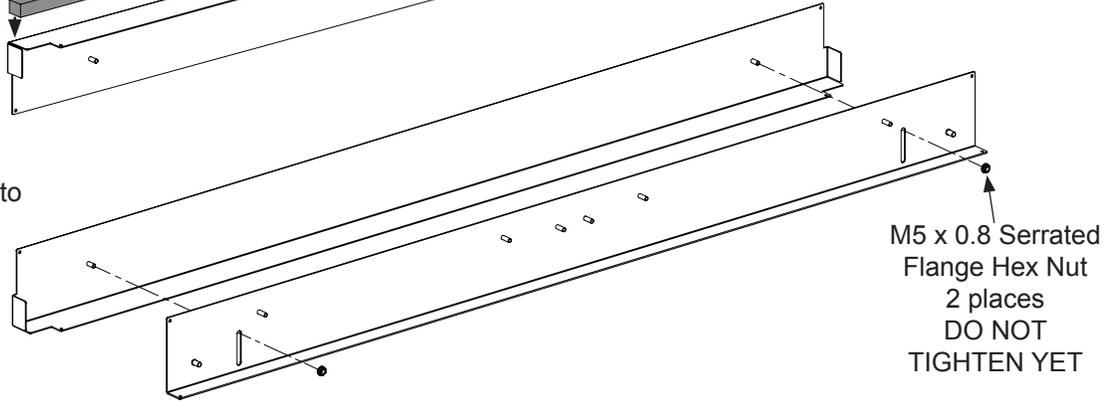

Installing Floor Seal to Columns

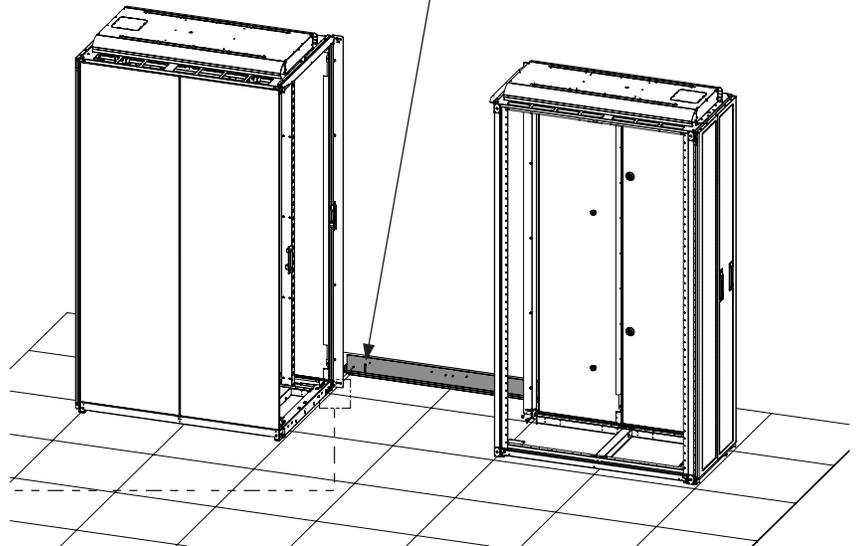

1
Install 1" x 1" Foam Seal
to Floor Seal Panel

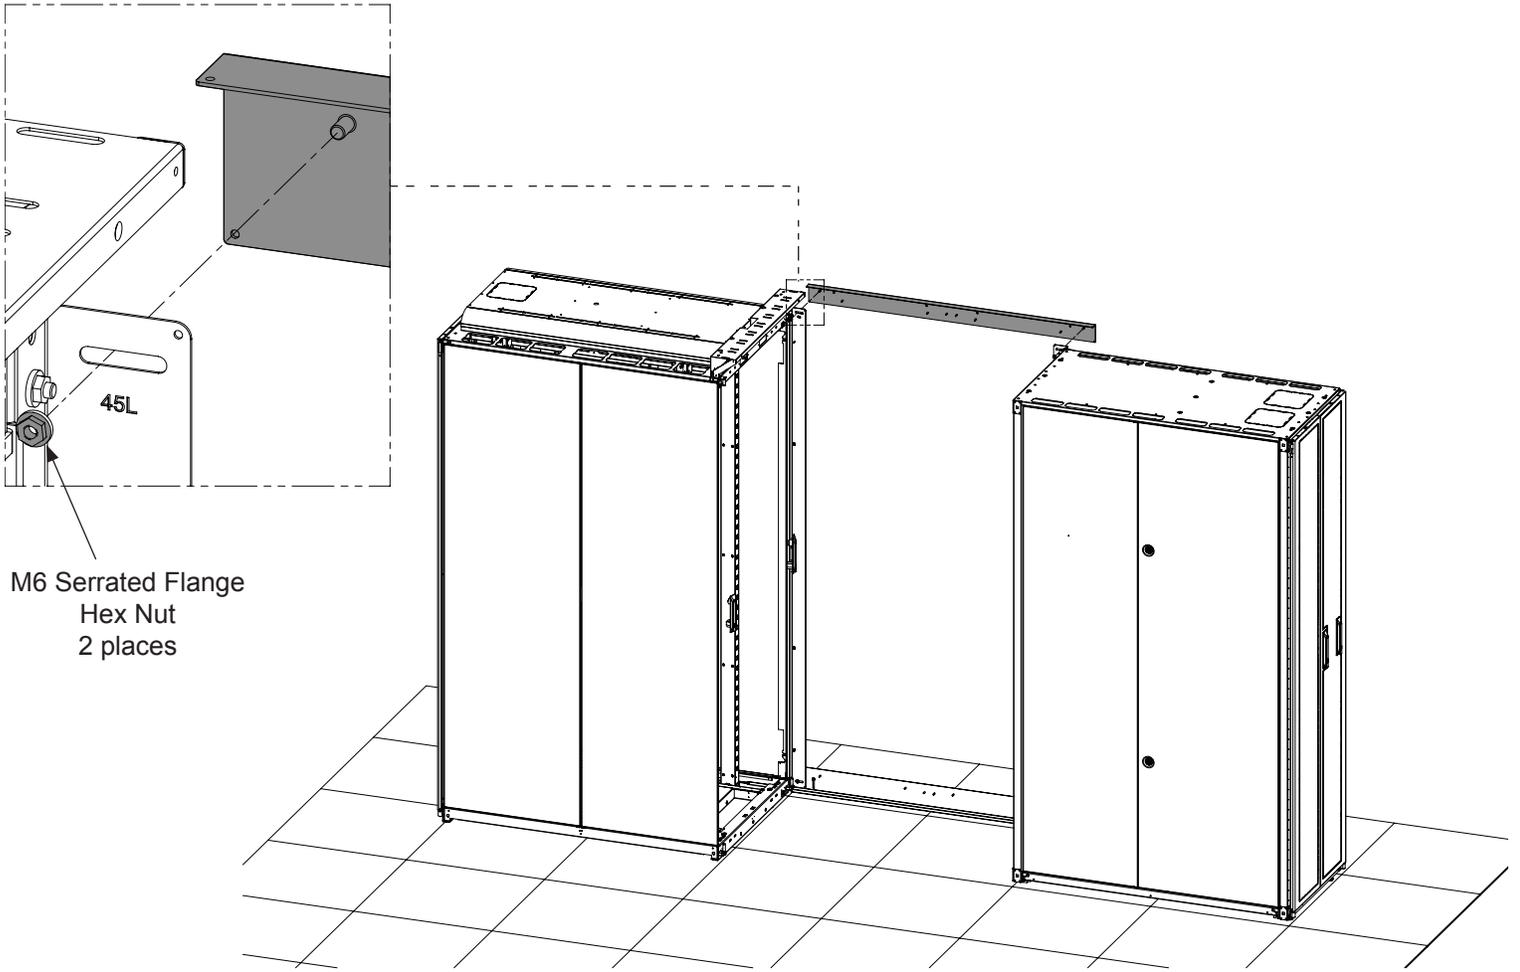

2
Attach Floor Seal Panel to
Bottom Panel Guide

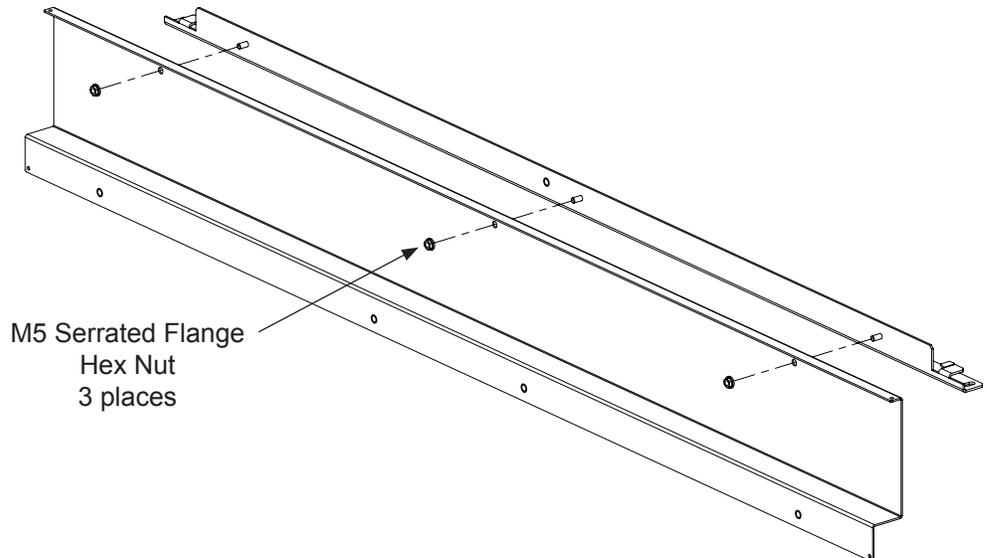

After attaching the Floor Seal. Push the Foam Seal tight against the floor and tighten the 2 M5 x 0.8 Hex Nuts left loose in Step 2.
