

# Mini-Com® Ultimate ID® Modular Patch Panels

## specifications

Ultimate ID® Modular Patch Panels shall consist of a metal panel with molded snap-in faceplates. Patch panels shall accept all Mini-Com® Modules for UTP, STP, fiber, or A/V applications and shall mount to standard 19" racks. Patch panels shall be available in 24-port and 48-port standard density in a flat or angled design. Ultimate ID® Patch Panels shall comply with the latest TIA-606-C labeling standard by providing labeling capabilities and various configurations. Angled patch panels shall be designed at an optimum angle to help route the cable.

## technical information

<b>Mounting options:</b>	Mounts to standard 19" rack or 23" rack with optional extender bracket
<b>Material:</b>	Stamping is CRS and faceplate is ABS
<b>Packaging:</b>	Packaged with appropriate pre-installed snap-in faceplates, a set of mounting screws (#12-24), and label cover kit

## key features and benefits

<b>Modular</b>	Accepts all Panduit Mini-Com® Modules to mix and match media types in the same panel
<b>Angled design</b>	Allows cable to flow to each side of the rack and minimizes the need for horizontal cable managers by enabling patch cords to be routed directly into vertical cable managers which leads to increased closet density and improved bend radius control
<b>Port and panel identification</b>	Complies with TIA-606-C labeling standard by providing labeling capabilities to the cable and the ports (labels not included)
<b>Optional strain relief bars</b>	Help support and manage cables
<b>Optional filler panels</b>	Flat and angled designs fill unused rack openings to provide a clean and consistent look when used with any version of Panduit angled patch panels
<b>Optional extender bracket</b>	Allows 19" patch panels to be mounted on a 23" rack

## applications

Mini-Com® Ultimate ID® Modular Patch Panels are ideal for multi-media applications; they accept all Mini-Com® Modules. Flat and angled designs in various port densities are available to fit most needs and include label pockets above the ports and the ability to customize the configuration based on specific needs. Angled patch panels are available for

applications in which rack space is limited. The angled panel design allows cable to flow to each side of the rack, minimizing the need for horizontal cable managers and increasing the density of the rack space. Ultimate ID® Patch Panels can mount on a standard 19" rack or a 23" rack when using the extender brackets PEB1 or PEB2.

### Ultimate ID® Flat Patch Panels

<b>24-port, 1 RU:</b>	UICMPP24BLY
<b>48-port, 2 RU:</b>	UICMPP48BLY

### Ultimate ID® Angled Patch Panels

<b>24-port, 1 RU:</b>	UICMPPA24BLY
<b>48-port, 2 RU:</b>	UICMPPA48BLY

### Labels for Ultimate ID® Patch Panels and Patch Panel Faceplates

<b>PanTher™ LS8E and Cougar™ LS9:</b>	UILS8BW
