

## specifications

The Duct Kit PN DDPK-KIT shall offer a cooling solution for top of rack switches. Simple to install and easy to use, the DDPK-KIT comes with a hardware kit with front mounting clips for front of rack attachment and rear attachment on rapid rails.

2RU Application

## product information

<b>Dimensions:</b>	Accommodates switches from 12.8" to 18.2" (320 mm to 462 mm)
<b>Weight:</b>	8.8 lbs. (4 kg)
<b>Material:</b>	Galvannealed steel 18 GA, powder coat black finish
<b>Packaging:</b>	Carton size 22" x 13" x 4"(558 mm x 330 mm x 102 mm)
<b>Kit Parts Include:</b>	Base plate, adjustable plate with bulb seal, 2 clips, 2 wing nuts, 4 rubber grommets, (4) M5x8 screws, instruction sheet

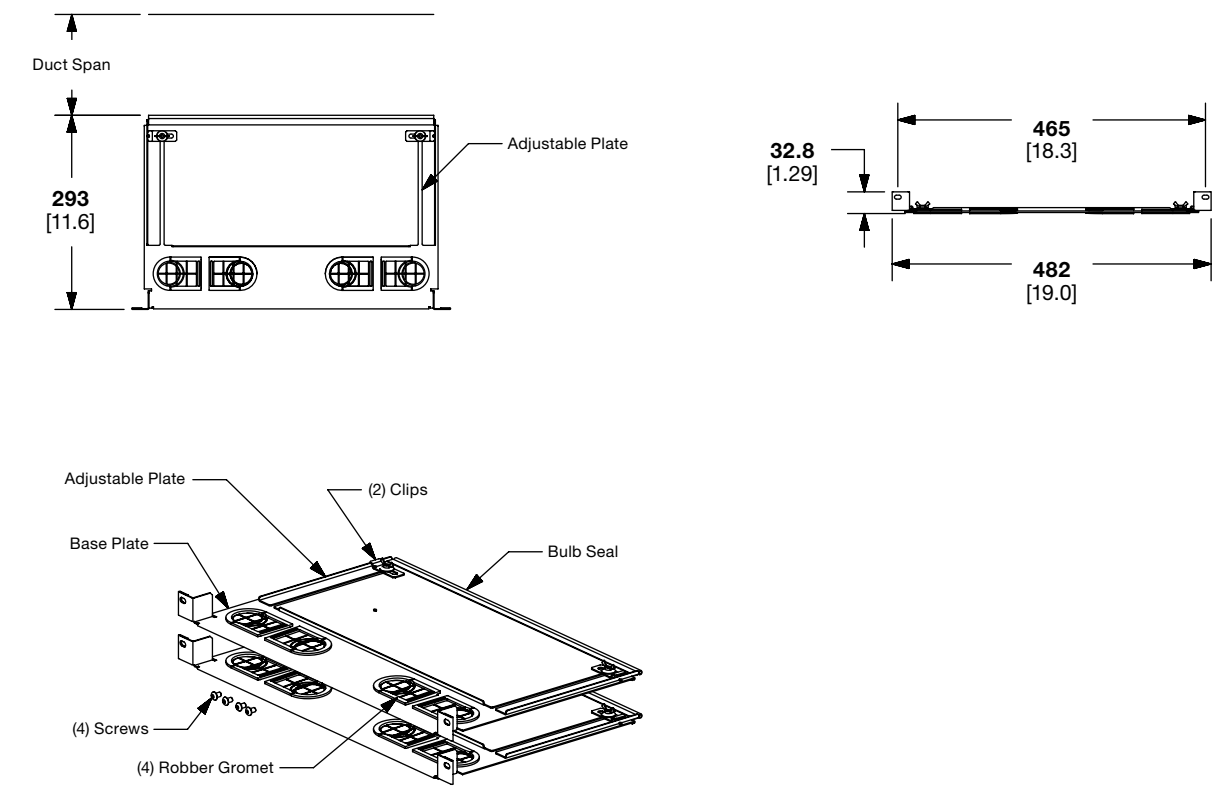

## key features and benefits

<b>Low Profile</b>	0 RU rack mounting profile allows it to fit in between equipment rails taking away minimal space from revenue-generating electronics in the cabinet
<b>High Density Installation</b>	Supports applications of stacked top of rack switches
<b>Cable Management</b>	Grommets with the duct allow cables to easily pass from switch to server compartments
<b>Cooling Efficiencies</b>	Can offer up to 15 degrees of cooling in simulated testing decreasing power budgets that support equipment cooling

## applications

The DDPK-KIT can be used as a heat baffle or duct to offer cooling between switches and servers in any traditional Data Center cabinet. It can be used in most manufacturer's cabinets and takes minimal tools to install. Installation between equipment rails allows for zero RU deployment when stacking top of rack switches within a cabinet.
