

Controlled Cycle Ferrule Crimp Tools-Trapezium Die

Ergonomically shaped handle is designed with soft grips to greatly reduce hand slippage and fatigue. Ratchet cycling, guarantees complete crimping of insulated and uninsulated loose piece ferrule end sleeves.

Key Features and Benefits

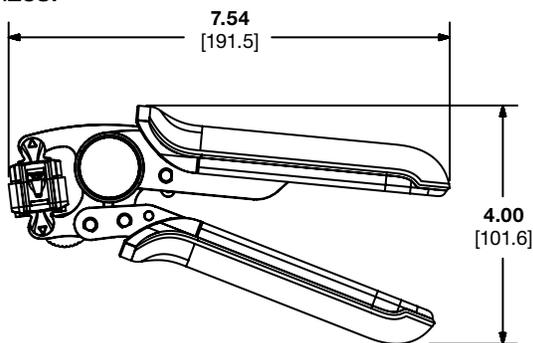

Tool-less die removal:	The crimp die can easily be removed from the handle, without the use of any tools. Available in square or trapezium crimp shape.
Swappable dies:	The square and trapezium die are interchangeable within the same handle, allowing the user to carry one less hand tool.
Rotating crimp die:	Die rotates 360 degrees for easy adaptability and in-field use.
Ratcheting cycling:	Integrated, releasable ratchet cycling, guarantees complete crimping.
Soft molded handles:	Ergonomically comfort molded handles designed to reduce hand fatigue.
Environmentally responsible:	The tool and its packaging are 100% recyclable.

Technical Information

Wire range:	28-10AWG
Tool dimensions (LxWxH):	7.54 in x 4.00 in x .92 in (191.5mm x 101.6mm x 23.2mm)

Applications

The crimp die, capable of full rotation, facilitates the insertion and crimping of ferrules at any angle without causing discomfort to the operator. This tool is suitable for use with a diverse selection of wire end ferrules, whether they have insulation or not, are single or twin, and covers a wide range of wire sizes.

Part Number	Part	Crimp Shape
CT-1200	Handle & Die	Trapezoid/Trapezium
CD-1200	Die only	Trapezoid/Trapezium
