

Multi-Purpose Zone Enclosures

The Multi-Purpose Zone Enclosure solution provides a versatile, inclusive, and cost-effective structured cabling option suitable for both commercial and residential deployments.

Multi-Purpose In-Ceiling Enclosure

MSICE24

- Open mounting pattern allows placement of equipment across the entire base of the enclosure using a 1 in. grid pattern for customizable mounting options, greater flexibility, and maximum use of available space
- Hinged lockable door protects against physical damage, vandalism, and tampering
- Simple deployment of cable knockout openings and gland plate allow cables to easily enter and exit the enclosure providing easier cable routing, quicker installation, and increased density
- Equipment mounting plate is removable, allowing the user to install the accessories/equipment before mounting the enclosure in the ceiling
- Power knockouts provisions included to mount one 2-gang outlet box to bring power to the box facilitating the ability to connect active devices in the enclosure
- Enclosure comes fully assembled with base and hinged door, and is comprised of 18 gauge steel
- Grounding kit properly bond the door to the base to protect network equipment and maximize uptime (sold separately)

| Part Number | Description |
|----------------|---|
| MSICE24 | 2' x 2' In-Ceiling Enclosure with Hinged Door |

Multi-Purpose Wall Mountable Enclosure

MS28EHDS

- Open mounting pattern allows placement of equipment across the entire base of the enclosure using a 1 in. grid pattern for customizable mounting options, greater flexibility, and maximum use of available space
