

Shielded Keystone Modular Patch Panels

SPECIFICATIONS

Shielded keystone modular patch panels shall be made of a stainless steel and mount to standard racks and cabinets. Shielded keystone patch panels shall accept Panduit Shielded keystone modules for shielded installations. Patch panels shall include four 6-port faceplates with identification pocket. Patch panels shall be available in flat and angled design, in 24-port density, in 1 RU and in black.

TECHNICAL INFORMATION

Mounting option:	Mounts to standard EIA 19" rack, or 23" rack or cabinet when used with extender bracket (PEB1)
Packaging:	Includes mounting screws, preassembled faceplates, label and label covers
Material:	Stamping is stainless steel, faceplates are ABS
Color:	Black
RoHS compliance:	Compliant

KEY FEATURES AND BENEFITS

Modular:	Shielded keystone modules snap in and out for easy moves, adds and changes
Identification:	Includes a dedicated label pocket for port identification
PEM Stud:	Built-in grounding lug helps bond panel to the rack
Angled design:	Allows cable to flow to each side of the rack, minimizing the need for horizontal managers, increasing rack and closet density.
Stainless steel construction:	Allows shielded jacks to bond directly to the patch panel.

APPLICATIONS

The Shielded keystone modular patch panels and shielded jack modules are ideal for use in shielded cabling installations. Angled patch panels minimize the use of horizontal cable managers by allowing the cables to flow directly into vertical cable managers, thus increasing rack density. Shielded keystone modules bond to the panel when snapped into keystone shielded metal patch panel. When installing the shielded patch panel on the rack, the use of patent pending thread-forming bonding screws will bond the patch panel to the rack. The combination of shielded patch panels, shielded jack modules and accessories provide a properly grounded system.

Flat Patch Panel

24-port, 1 RU: SKPP24BL

Angled Patch Panel

24-port, 1 RU: SKPPA24BL

Shielded Keystone Jack

Category 6A, black: SKJ6X88BL

Category 6A black, pack of 100: SKJ6X88BL-C

Category 6, black: SKJ688BL

Category 6, black, pack of 100: SKJ688BL-C

Strain Relief Bars*

Straight bar: SRBS19BL-XY

2-inch depth: SRB19BLY

5-inch depth: SRB19ED5BL

Filler Panels*

Flat, 1 RU, black: DPFP1

Flat, 2 RU, black: DPFP2

Angled, 1 RU, black: CPAF1BLY

Angled, 2 RU, black: CPAF2BLY

Transitional cover: CPATCBL

Thread-Forming Bonding Screws

#12-24 English: RGTBSG-C

M6 Metric: RGTBSM6G-C

Mounting Hardware for Strain Relief Bars

Cage nut kit: CNSRBKIT-C

Threaded screw kit: TRSRBKIT-C
