FUSADR5/14 – Surge protection device FUSADEE

Edition 19/11/2008

Description

FUSADEE R5/14 cartridge.

User guide

Surge protection for low voltage network in low surge risk area or for protection in divisional board.

Description

Type 2 Surge protection Device for low voltage network.

Features

- Rated voltage U_c : 400Vac ;
- Nominal voltage 230/400Vac
- Compatible earthing systems : TT, TN et IT
- Residual protection voltage U_p : 0,8kV ;
- Conformity : IEC 61643-11

Installation requirements

Installation downstream of a differential circuit breaker with a caliber lower than 100A.

description assistance

Type 2 Surge Protection Device for <100A board, nominal voltage 400V, Protection voltage U_p 0.8kV, Zener technology, discharge current rating I_n 0.1kA, number of discharges at I_n unlimited, disconnecter associated recommended: nominal current <100A sensitivity <1A undelayed or S Type.

Cylindrical arrester cartridge size 14x51mm.

Spare parts and accessories

Spare :

- Cartridge-holder FUSADEE 14x51 : code 10203

Recommended accessories:

- Cartridge controller : code 30111

Code 10203
