

SCL and SMTL Series UPS Shipping Guide

This guide is applicable to all UPS models under SCL and SMTL series

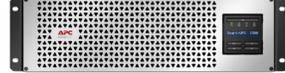

Shipment Classification: **UN 3481, Lithium Ion Batteries.**

Please follow the following steps:

1. SCL and SMTL are **not restricted** as “fully regulated” dangerous goods.
2. Packaging Requirements:
 - a) Ensure packaging is not damaged.
 - b) If via Air, battery weight limit per package: ≤ 5 kg (excluding weight of equipment and packaging).
3. Documentation Requirements:
 - a) **Air**: Declaration of Dangerous Goods (DG) is NOT required.
 - b) On the Air Waybill indicate: **Lithium ion batteries in compliance with Section II of PI 967.**
 - c) **Ocean**: Indicate: **Not Restricted per SP 188.**
 - d) **Ground**: no documentation is required. Do not use a HAZMAT Bill of Lading (BOL).
4. Place Lithium Battery Label with UN3481 on the box.
5. Indicate Tel# US: +1 800-255-3924 or International: +1 813-248-0585 on the box.

6. Personnel preparing the package must be trained in the safe shipment of lithium batteries but do not require full IATA certification.
