# YOU AND YOUR USE...

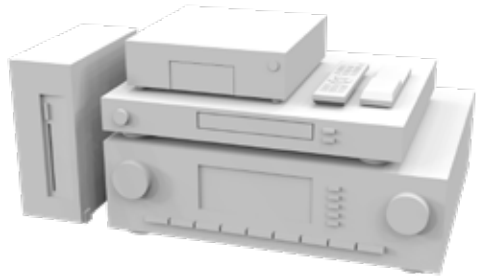

Because we do not all watch TV in the same way...

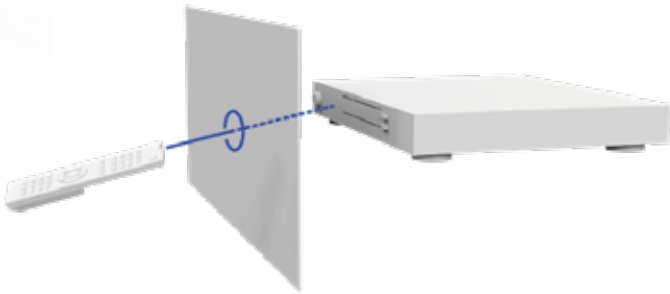

Because our TV screens are not all the same size...

Because our TV mount patterns are not all positioned in the same place...

Because we sometimes have a lot of devices....

Because we need to pilot these devices....

Because we spend a lot of time charging our phones....

Because cables are always an issue...

# NAGA AND OUR SOLUTIONS...

Height adjustable feet  
386 or 450 mm
