## DIN compensating cable KN 4 L-S 2x1,5 oval

# **Application**

The compensating cable KN 4 L-S 2 x 1,5 mm² is a glass fibre insulated cable which transmits the thermoelectric voltage of NiCr/Ni thermocouples. It is for fixed installation in dry rooms and may only be installed outdoors with UV- and humidity protection and in observation of the max. permitted temperature range. The steel wire armouring serves as mechanical protection.
