Connections

Diagram illustrating the connections for the Connections exercise. The circuit is powered by a 5V supply (indicated by the battery symbol) and a 0V ground. The connections are as follows:

- Pin 1 is connected to the 5V supply.
- Pin 4 is connected to the 5V supply.
- Pin 5 is connected to the 5V supply.
- Pin 8 is connected to the 5V supply.
- Pin 9 is connected to the 5V supply.
- Pin 10 is connected to the 5V supply.
- Pin 2 is connected to the 0V ground.
- Pin 6 is connected to the 0V ground.
- Pin 12 is connected to the 0V ground.
- Pin 3 is connected to the 0V ground.

Connector	M12 with 12 pole at the bottom
