

Connections

Diagram illustrating the connections for the Connections terminal block. The connections are as follows:

- Pin 1: Connected to the common line.
- Pin 4: Connected to the common line.
- Pin 5: Connected to the common line.
- Pin 7: Connected to the common line.
- Pin 9: Connected to the common line.
- Pin 10: Connected to the common line.
- Pin 11: Connected to the common line.
- Pin 2: Connected to the common line (diode symbol indicates signal direction).
- Pin 6: Connected to the common line (diode symbol indicates signal direction).
- Pin 8: Connected to the common line (diode symbol indicates signal direction).
- Pin 12: Connected to the common line (diode symbol indicates signal direction).
- Pin 3: Labeled 0 V.

Connector	M12 with 12 pole at the bottom
