### Informations générales

Extension du type de produit	SUG/U1.1
Code de produit	2CDG110207R0011
EAN	4016779997362
Description courte	SUG/U1.1 Split Unit Gateway, FM
Description longue	<p>The Split Unit Gateway forms the interface between the KNX system and many manufacturers' air conditioners, so-called split units. The device converts the KNX telegrams into infrared commands and transmits them to the split unit.</p> <p>The transmitter of the supplied cable is bonded directly onto the split unit's receiver. The split unit then no longer receives the commands from a remote control. Instead, it can be operated via any KNX sensors or via a visual display system. The device is put into operation with the ETS, and a free ETS app is available to select the split unit model.</p> <p>Auxiliary voltage is not required.</p>
