Customer-Inspired Solutions

The nVent CADDY Story

**Since 1956, contractors
have relied on the premium
quality and ease of use
of nVent CADDY products –
an innovative and complete
range of solutions.**

**ELECTRICAL • DATACOM • FIRE SPRINKLER • MECHANICAL
HVAC • PLUMBING • ROOFTOP • SEISMIC BRACING**

Doing Work the Right Way for More Than 60 Years

Since 1956, contractors, architects, engineers and distributors have trusted nVent CADDY for quality fixing, fastening and hanging products. nVent CADDY is there for customers through every step of the job, from design to installation to inspection. Trust nVent CADDY for applications including electrical, mechanical, datacom, plumbing, HVAC, fire sprinkler and more.

SOLUTIONS

nVent CADDY product development creates innovative products to enable easier installation for contractors.

nVent CADDY products are designed to be:

-  Safe
-  Fast
-  Easy

ENGINEERING

nVent CADDY creates products with the user experience in mind.

With years of expertise, our engineers can assist with:

- Specifications
- Code-compliant products
- Installation plans
- Full-system solutions

With additional engineering services, nVent CADDY extends its expertise into custom solutions for:

- Prefabricated installation
- Seismic bracing systems

QUALITY

nVent CADDY employees take quality seriously and participate in several industry organizations including:

All nVent CADDY products undergo extensive development, testing and certification to adhere to codes and standards.

Our products pass the testing of certification agencies such as:

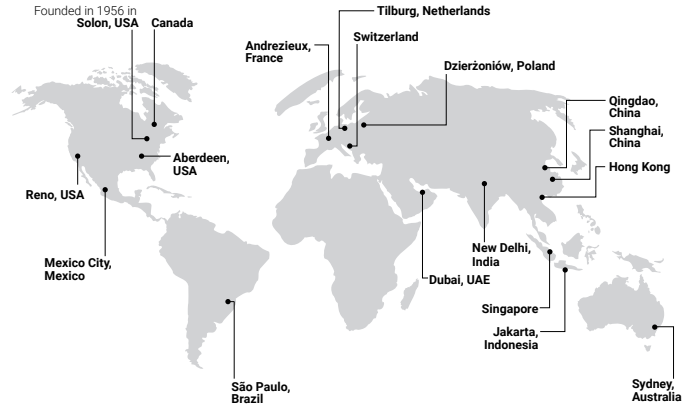

Built for Projects, Designed for People

FOUNDED IN THE USA, SUPPORTED WORLDWIDE

nVent CADDY was founded and is based in the United States, but has a wide global footprint with manufacturing plants throughout the United States, the Netherlands, France, and other regional hubs.

With a commitment to serving the customer with the best products on the market, the nVent CADDY team maintains visibility into the manufacturing process from start to finish.

YOUR TEAM IS OUR TEAM

For decades, our product development team has worked with contractors on job sites to understand their challenges and frustrations. The team then applies these observations, developing solutions fitting contractor needs, including ways to reduce time, increase ease of and overall installation.

Once a product is developed, the team validates it in the field with our customers. Over the years, nVent CADDY has created a unique relationship with our customers, even creating products named for our most loyal.

nVent CADDY application engineers and product developers spent over 330 days (and counting!) in the field identifying new ways to create efficiencies and end-user value.

THE BEST TRAINING FOR THE BEST PRODUCTS

nVent CADDY has opportunities for customers to participate in nVent CADDY School, a training session that takes place several times a year, walking users through product installation and benefits.

nVent CADDY is also investing in the future by supporting new apprentices as well as those with many years in the field. The nVent CADDY team gets out of the office and into the field to do on-site training and demos for customers as well.

Your nVent CADDY Man

Just The Right Fastener™

In the 1970s, a bright mind felt that the CADDY brand needed a mascot to reflect the evolving business. After a few napkin sketches during a plane ride, the CADDY Man was developed into a logo and became an instant favorite, highlighted in advertising and catalogs.

Our bright yellow boxes with the CADDY Man on the side have become a recognized sight on the shelves of distributors and job sites worldwide.

While the CADDY Man has had a few transformations over the years, he still wears his trademark yellow shirt, has his hands in his pockets, and works smarter and safer - waiting on the rest of the job site to catch up to his job well done. He's an installer, just like the people who use the same, time-saving nVent CADDY products!

Customer-Inspired Solutions

nVent CADDY's team of experts take the time to create solutions with customers and their challenges in mind, as well as trends in the current market. Hours of research, product development and engineering goes into the nVent CADDY products customers know and love.

nVent CADDY products help customers solve problems by creating solutions for their biggest obstacles.

BUILDING CODE REQUIREMENTS

PROJECT CHALLENGES

ENVIRONMENTAL FACTORS

FIRE SAFETY

CRITICAL EQUIPMENT PROTECTION

nVent CADDY products solve for these challenges and more, while being engineered to be:

SAFE

Many injuries on the job site are the result of falls. nVent CADDY products are designed to move a significant amount of the work previously completed on lifts and ladders to ground level, greatly reducing the risk of injury. Tool-free components also limit the use of potentially dangerous power tools.

FAST

Every part of an nVent CADDY product is meticulously designed to reduce the amount of total installation time. This is done by making the product install quicker than its traditional counterpart as well as creating products that make it easy to prefabricate complex assemblies on the ground or offsite. Limit rework after installation and meet jobsite deadlines using innovative nVent CADDY products.

EASY

nVent CADDY products are designed to incorporate features that make installation easier. nVent CADDY products are designed to have fewer parts, secure hardware and require fewer tools. The benefits of individual products are multiplied when used together as a system solution.

Products to fit most applications including:

**ELECTRICAL • DATACOM • FIRE SPRINKLER • MECHANICAL
HVAC • PLUMBING • ROOFTOP • SEISMIC BRACING**
