

nVent CADDY EZ Riser

FEATURES GUIDE

EASE OF INSTALL FEATURES

One-piece hinge design comes out of the box ready to install

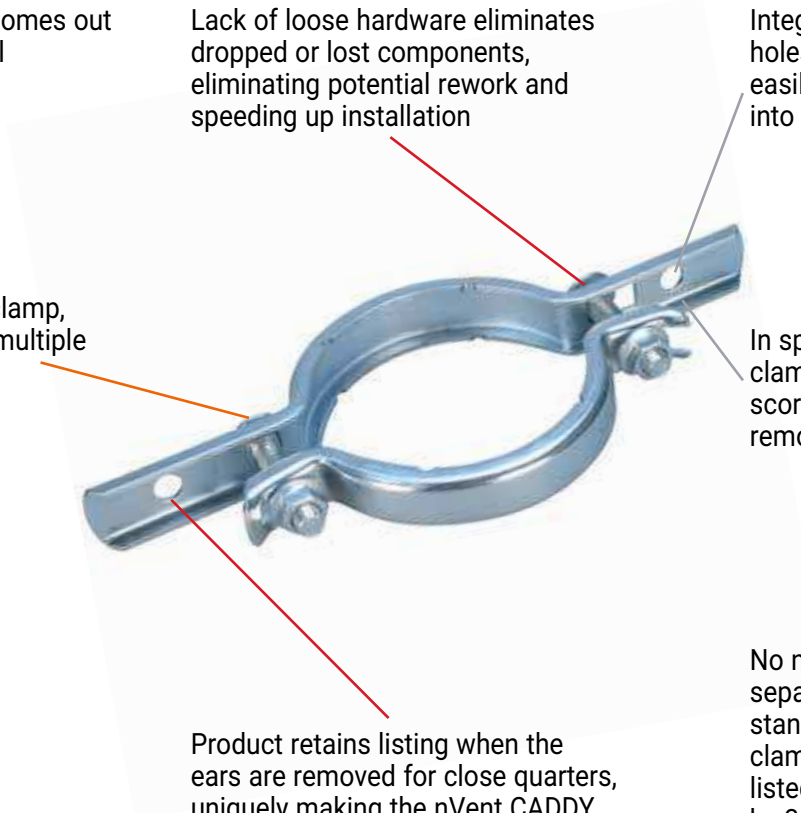

SAFETY FEATURES

Lack of loose hardware eliminates dropped or lost components, eliminating potential rework and speeding up installation

ADAPTABILITY FEATURES

Integrated second set of bolt holes allow the assembly to easily adapt from a riser clamp into a stand-off support

Carriage bolts seat into clamp, eliminating the need for multiple tools when tightening

In spaces where full-sized riser clamps do not fit, integrated score marks allow for easy removal of ears

No need to stock and use separate part families for standard and close quarter clamps to offer a full range of listed parts, reducing inventory by 38%

Product retains listing when the ears are removed for close quarters, uniquely making the nVent CADDY EZ Riser capable of a listing in both installations

The color of the line corresponds to the larger goal of each feature:

EASE OF INSTALL FEATURES

SAFETY FEATURES

ADAPTABILITY FEATURES

Conforms with Federal Specification WW-H-171 (Type 8), Manufacturers Standardization Society (MSS) SP-58 (Type 8)
