Easy and quick installation sequence overview

Aperçu de la séquence d'installation simple et rapide

1		Fix half supports directly on the wall, ceiling or on cable tray	Fixer les supports au mur ou au plafond ou sur chemin de câbles
2		Connect the ready-to-use Flexbus conductor with pre-punched holes onside switchboard	Connecter la plage prêt à l'emploi du conducteur Flexbus au TGBT
3		Install conductors into the supports and mount the top part of the supports	Installer les conducteurs dans la partie inférieur du support et monter la partie supérieur du support
4		Strip Flexbus conductor and cut Flexbus conductor excess length	Dénuder le conducteur Flexbus et couper la sur-longueur avec un coupe câbles
5		Connect Flexbus conductor with HCBC clamp and plate	Raccorder le conducteur Flexbus avec les Serre-Barres et plaques de maintien HCBC
Optional		Optional IP2x Boots	Cache de protection IP2x optionnel
		Optional IP55 Conductor Entry	Passe conducteur IP55 optionnel
		Optional Fire Barrier	Système coupe-feu optionnel

	Einfache und schnelle Übersicht über den Installationsablauf	Panoramica della sequenza di installazione facile e veloce	Resumen de la secuencia de instalación fácil y rápida	
	Befestigen Sie die Stützträger direkt an der Wand, der Decke oder an einer Kabelrinne	Fissare i supporti direttamente sulla parete, sul soffitto o sulla canalina portacavi	Fije la mitad de los soportes directamente en la pared, en el techo o en la bandeja de cables	Pg. 4
	Schließen Sie die gebrauchsfertige Flexbus-Leitung mit vorgestanzten Löchern an Ihren Schaltschrank an.	Collegare il conduttore Flexbus pronto all'uso con i fori preforati sul quadro elettrico	Conecte el conductor Flexbus listo para usar con los agujeros preperforados en el cuadro eléctrico	Pg. 6
	Legen Sie die Flexbus-Leitung in die Stützträger und montieren Sie den oberen Teil der Montagestützen	Installare i conduttori nei supporti e montare la parte superiore dei supporti	Instale los conductores en los soportes y monte la parte superior de los soportes	Pg. 7
	Flexbus-Leitung abisolieren Flexbus-Leiter mit Flexbus-Schere zuschneiden	Spellare e tagliare il conduttore Flexbus in eccesso con le Tranciatrici/Cesoie Flexbus	Pelar el conductor Flexbus y cortar el exceso de conductor Flexbus	Pg. 9
	Flexbus-Leitung mit HCBC-Klemme und Platte verbinden	Collegare il conduttore Flexbus con il serrabarre e la piastra HCBC	Conecte el conductor Flexbus con la abrazadera HCBC y la placa	Pg. 10
	Optionale IP2x-Schutzabdeckung	Coperchio di protezione IP2x opzionale	Cubierta de protección IP2x opcional	Pg. 11
	Optional IP55 Eingangsverbindung	Pressacavo IP55 opzionale	Entrada del conductor IP55 opcional	Pg. 12
	Optionales Brandschutz System	Sistema di barriera antincendio ignifuga	Barrera contra el fuego opcional	Pg. 13

1

EN Fix supports directly on the wall, ceiling or on cable tray (wire basket/perforated/cable ladder). Use multiple possible mounting configurations to fit your installation (Flat/Edge)

FR Fixer les supports au mur ou au plafond ou sur chemin de câbles (perforé, filaire ou à échelle). Utiliser toutes les configurations possible pour répondre aux besoins de votre installation (Conducteurs à plat ou sur chant le long du cheminement)

DE Befestigen Sie die Stützträger direkt an der Wand, der Decke oder an einer Kabelrinne (Drahtkorb/Lochung/Kabeltrasse). Nutzen Sie mehrere mögliche Montagekonfigurationen, um Ihre Installation anzupassen (Flach/Eckbefestigung...)

IT Fissare i supporti direttamente sulla parete, sul soffitto o sulla canalina portacavi (canalina a filo/preforata/a scala). Utilizza tutte le molteplici configurazioni di montaggio per adattarsi alla tua installazione (in piano/di costa)

ES Fije los soportes directamente en la pared, en el techo o en la bandeja de cables (cesta de cables/perforada/escalera de cables). Utilice las múltiples configuraciones de montaje posibles para adaptarse a su instalación (plano/en el borde...)

2

- EN** Connect the ready-to-use Flexbus conductor with pre-punched holes to the switchboard. This connection can be made directly onto the busbar or circuit breaker with optional palm extenders
- FR** Connecter la plaque prêt à l'emploi du conducteur Flexbus au TGBT. Ce raccordement peut s'effectuer sur jeux de barres ou sur les plaques du disjoncteur ou interrupteur. Des plaques d'extension optionnelles sont disponibles
- DE** Schließen Sie die "ready to install" Flexbus-Leitung mit vorgestanzten Löchern in Ihrem Schaltschrank an. Dieser Anschluss kann direkt auf der Sammelschiene oder am Leistungsschalter mit der Option "Anschlußflächenverlängerung" realisiert werden
- IT** Collegare il conduttore Flexbus pronto all'uso con i fori preforati sul quadro elettrico. Questo collegamento può essere realizzato direttamente sulla sbarra di distribuzione o sull'interruttore con i nostri terminali estensori opzionali
- ES** Conecte el conductor Flexbus listo para usar con los agujeros preperforados en el cuadro de distribución. Esta conexión se puede realizar directamente al embarrado o en el disyuntor con los extensores de palma opcionales

3

- EN** Install conductors into the supports and mount the top part of the supports. Leave excess conductor length at the top of the transformer/power supply.
- FR** Installer les conducteurs dans la partie inférieur du support et monter la partie supérieur du support. Laisser la sur-longueur du conducteur au-dessus du transformateur ou de la source de courant.
- DE** Legen Sie die Flexbusleitung in die Stützträger und montieren Sie den oberen Teil der Stützen. Lassen Sie die Leiter an der Oberseite des Transformators/der Stromversorgung extra lang.
- IT** Installare i conduttori nei supporti e montare la parte superiore dei supporti. Lasciare la lunghezza extra dei conduttori nella parte superiore del trasformatore/alimentazione
- ES** Instale los conductores en los soportes y monte la parte superior de los soportes. Deje los conductores con una longitud extra en la parte superior del transformador/alimentación.

On Edge Support Kit

4

- EN** Strip Flexbus conductor. Cut excess length of the Flexbus with scissors or shears
- FR** Dénuder le conducteur Flexbus et couper la sur-longueur avec un coupe câbles
- DE** Flexbus-Leitung abisolieren
Flexbus-Leiter mit Flexbus-Schere zuschneiden
- IT** Spellare e tagliare il conduttore Flexbus in eccesso con le Tranciatrici/Cesoie Flexbus
- ES** Pele el conductor Flexbus. Corte el sobrante del conductor Flexbus con la tijera/cortadora Flexbus

5

- EN** Connect Flexbus conductor with HCBC clamp and plate
- FR** Raccorder le conducteur Flexbus avec les Serre-Barres et plaques de maintien HCBC
- DE** Flexbus-Leitung mit HCBC-Klemme und Platte verbinden
- IT** Collegare il conduttore Flexbus con i serrabarre e le piastre HCBC
- ES** Conecte el conductor Flexbus con la abrazadera HCBC y la placa

Optional

- EN** Optional IP2x Boots
- FR** Cache de protection IP2x optionnel
- DE** Optionale IP2x-Schutzabdeckung
- IT** Coperchio di protezione IP2x opzionale
- ES** Cubierta de protección IP2x opcional

Optional

- EN** Optional IP55 Conductor Entry
- FR** Passe conducteur IP55 optionnel
- DE** Optional IP55 Eingangsverbindung
- IT** Pressacavo IP55 opzionale
- ES** Entrada del conductor IP55 opcional

Optional

- EN** Optional Fire barrier
- FR** Système coupe-feu optionnel
- DE** Optionales Brandschutz System
- IT** Sistema di barriera antincendio ignifuga
- ES** Barrera contra el fuego opcional
