

nVent CADDY Wire Basket Tray Waterfall

The nVent CADDY Wire Basket Tray Waterfall is a versatile, easy-to-install cable management solution for wire basket trays. Featuring innovative over-sidewall technology, installers can eliminate stress and pressure points on cable while removing the need to cut tray – saving valuable time on the job. Its flexible design and tool-free installation caters to both over-wall and flush-mount applications.

The Waterfall provides robust support and protection for large, high-density cable bundles and is ideal for managing copper, fiber optic, PoE and DAS cables. Available in both 12" and 20" options with a 120-degree bend radius, the sidewalls help funnel cables to an installer's desired location, creating a continuous pathway solution while maintaining a seamless and visually appealing finished result. When necessary, the Waterfall has designated tie-off areas for grounding and bonding.

FEATURES

- Equipped with tie-down openings to facilitate bundled cable options
- Powder coating protects against scratches or cable damage
- Maintains a 120-degree bend, adhering to TIA-approved radius standards for all cable types
- Standard finishes include black powder and electro-galvanized (zinc) coatings, with customization options for other colors upon request
- Provides optimal support for high-performance data cable, up to and including fiber optic, Cat 5e, Cat 6, Cat 6A, and Cat 7

Material: Steel
Finish: Electrogalvanized
