

# Connecteur de mise à la terre en cuivre à sertir en C, taraud. 70-50mm<sup>2</sup> toronné

## CATALOG NUMBER

**ULT-9-MM**

The nVent ERICO PermaGround Compression Connector, C-Crimps are high-strength, conductive copper connectors designed to create permanent, low-resistance grounding connections. These C-Crimps utilize a compression tool to join two grounding conductors securely, and their range-taking design accommodates various conductor sizes. Clear markings and all-weather durability make them ideal for diverse applications, including direct burial.

## FEATURES

Dies are interchangeable with tools from nVent ILSCO TaskMaster and other manufacturers per product instructions

Permanent, corrosion-free grounding with high-conductivity copper ensures lasting, reliable connections

Adaptable to various conductor sizes, simplifying inventory and maximizing application flexibility

Engineered for reliable environmental performance, including direct burial in earth or concrete

Clear imperial markings and die index simplify installation

Suitable for circuits rated 35 kV or less with proper installation

Manufactured from high-conductivity copper alloy

## PRODUCT ATTRIBUTES

Material: Copper

Conductor Type: Solid;Stranded

Main/Run Conductor Range: 70 - 50 mm<sup>2</sup>

Tap Conductor Range: 70 - 50 mm<sup>2</sup>

Connection Type: Conductor to Conductor

Number of Crimps: 1

Length (L): 34.3mm

Width (W): 20.6 mm

Height (H): 23.5 mm

Unit Weight: 0.07 kg
