WORKS WITH WELL

PRODUCT MODEL AZX8AIQSNSB

AirQ Sensor (Product without Wi-Fi)

Products in Air & temperature sensors by Airzone Control in line AirQ Sensor

Interface for controlling and monitoring air quality in a zone in an Airzone system.

ALIGNMENTS

AIR			
A08.1	Install Indoor Air Monitors	Directly contributes	This product can directly contribute to teams meeting A08.1's sensor requirements criteria
THERMAL COMFORT			
T06.1	Monitor Thermal Environment	Directly contributes	This product can directly contribute to teams meeting T06.1's sensor requirements criteria
MATERIALS			
X01.3	Restrict Lead	Directly contributes	This product can directly contribute to teams meeting X01.3's lead restriction criteria
X05.1	Select Compliant Interior Furnishings	Directly contributes	This product can directly contribute to teams meeting X05.1's materials selection criteria

WORKS WITH WELL

PRODUCT MODEL AZAIQWSCSNS

AirQ Sensor (Product with Wi-Fi)

Products in Air & temperature sensors by Airzone Control in line AirQ Sensor

Interface for controlling and monitoring air quality in a zone in an Airzone system.
