

Cyclon D Cell (0810-0004) Sealed Lead Acid Battery, 2V 2.5Ah

Hawker cells use a sealed construction providing long service life, rugged construction, extreme temperature performance, fast recharge, high discharge rates and low internal resistance. Can be added together to get higher voltages and capacities.

- High rate charge and discharge capable
- Extreme temperature performance (-65C to +80C)
- Pure lead-tin construction - low internal resistance
- Long cycle life - up to 1500 charge/recharge cycles
- Rapid charge capable - under 1 hour recharges possible

Terminals: .187 Fast-On

Internal Resistance: 5.0mΩ

Short Circuit Current: 400A

Cell Size: "D"

Manufacturer:

Hawker

Chemistry: SLA

Voltage: 2 Volts

Capacity: 2.5 Amp  
Hours

Dimensions: 1.35" L  
x 1.35" W x 2.68" H

Weight: 0.4 Pound(s)
