

Concealed Duct type Fresh Air Intake Unit

Long Life Pre-Filter

Model: TCB-PF4D-1E

NOTES

- Keep this Manual with Owner's Manual.

Safety Cautions

- Before installation work, read thoroughly this "Safety Cautions" to install the air conditioner correctly.

WARNING

- Keep all plastic bags away from babies and small children as a danger of suffocation exists.

CAUTION

- Install the suction grille securely to the main unit. If an incomplete installation is performed, falling of the suction grille may causes an injury.

Specifications

Model name MMD-	AP0481HFE
Quantity	2
Initial Pressure Loss Pa	9.8
Final Pressure Loss Pa	49
Dust collecting effect	30% (Weight method)
Operation time (Life)	2500 hours

Installation of filter

- (1) Mount the filter chamber to the airinlet opening side of the air conditioner main body with the attached fixing screws.
The mounting direction should be such that the service panel of the filter chamber is located on the side of the inspection opening.
- (2) Remove the service panel, and insert the pre-filter and high-efficiency filter (sold separately) into the chamber.

Note: Each of the filters has polarity. Check the air flow mark and insert it to the direction shown in the following figure.

- (3) Mount the service panel.

CAUTION

Mount it properly by following the instructions in this installation manual.
Mounting it improperly may cause abnormal sounds or failure of the air conditioner main body.
