ECP2601T

Coaxial transmitter on RJ45 PoE

DESCRIPTION

POEC transmitter on coaxial cable, the ECP2601T enables Ethernet transmission without rewiring, compatible with standard broadcast infrastructures. It ensures reliable Ethernet network extension via POEC distribution, suited for industrial environments and optimized for high-frequency data transmission on existing coaxial cables.

ADVANTAGES

- Ethernet transmission over existing coaxial cables without recabling
- Compatible with standard broadcast infrastructures
- Reliable Ethernet network extension via POEC distribution
- Suitable for industrial environments and optimized for high-frequency data
