ECP2701

ETHERNET OVER COAX TRANSCEIVER

DESCRIPTION

ETHERNET OVER COAX TRANSCEIVER. Ethernet transceiver designed for reliable transmission over standard-compliant coaxial cable. Standardized for easy integration into professional systems, it supports high-frequency data transmission and adapts to diverse industrial and building environments.

ADVANTAGES

- Reliable Ethernet transmission over coaxial cable compliant with standards
- Standardized integration facilitating installation in professional systems
- Supports high-frequency transmission in industrial environments
- Suitable for building infrastructures and various data networks
