ECP2704R

4-port POEC receiver

DESCRIPTION

4-port coaxial Ethernet PoE receiver providing stable transmission and secure power via coaxial cable. Compliant with European standards, it easily integrates into professional and industrial environments, ensuring reliable connectivity for multiple local networks. Simple installation suited for modern infrastructures.

ADVANTAGES

- Stable PoE Ethernet transmission over 4-port coaxial cable
- Secure power supply compliant with European standards
- Easy installation in professional and industrial environments
- Compatible with modern infrastructures and multiple local networks
