WARNING

Turn power off before installing or removing terminal or connector. All work should be done according to appropriate electrical codes. Recommended for thermoplastic-insulated wire such as vinyl. Recommended Tools – Slip Joint Pliers, or a smooth jaw tool with parallel jaw crimping action.

TO BE SOLD ONLY WITH INSTALLATION INSTRUCTIONS.

Installation Instructions

- 1 Place unstripped wires in proper channels.
- 2 Drive element down until it is flush with top of connector.
- 3 Close Cover.

Operating temperature: 90°C maximum.
 Wire range: 1,5mm² - 2,5mm² solid or stranded.
 Maximum Insulation O.D.: 0.137 in (3,5mm)

AVERTISSEMENT

Coupez le courant avant d'installer ou de retirer des bornes ou des connecteurs. Toute manipulation doit être effectuée selon les codes d'électricité appropriés.

Recommandé pour les fils à isolation thermoplastique tel que le vinyle. Non recommandé pour les utilisations souterraines ou sous-marines. Outils recommandés – Pince à joint coulissant, ou pince de sertissage à fermeture parallèle.

LE PRODUIT DOIT ÊTRE VENDU AVEC LES DIRECTIVES D'INSTALLATION.

Instruction d'installation

- 1 Placez les fils non dénudés dans les canaux appropriés.
- 2 Serrez l'élément en <<U>> vers le bas à l'aide d'une pince jusqu'à ce qu'il soit au même niveau que le dessus du connecteur.
- 3 Fermez le couvercle.

Température maximum d'utilisation : 90°C
 Calibre de fil : Fil en cuivre, plein ou souple ou rigide, 1,5mm² - 2,5 mm²
 Dia. Ext. Max. d'isolement de fil : 0.137 po (3,5mm)
