Avvertenze generali

- Leggere attentamente le istruzioni, prima di iniziare l'installazione ed eseguire gli interventi come specificato dal costruttore.
- L'installazione, la programmazione, la messa in servizio e la manutenzione del prodotto deve essere effettuata solo da personale tecnico qualificato ed opportunamente addestrato nel rispetto delle normative vigenti ivi comprese le osservanze sulla prevenzione d'infortuni.
- Prima di effettuare ogni operazione di pulizia o di manutenzione, togliere l'alimentazione.
- L'apparecchio dovrà essere destinato solo all'uso per il quale è stato studiato.
- Il costruttore non può comunque essere considerato responsabile per eventuali danni derivanti da usi impropri, erronei ed irragionevoli.

Dimensioni A

Installazione da parete

Togliere la placcia frontale utilizzando la brugola in dotazione **B** (tranne per le versioni Metal).

Con i tasselli in dotazione fissare il posto esterno **C** all'altezza desiderata tenendo conto del posizionamento dell'obiettivo della telecamera **D**. Far passare la tubazione **C1**, estrarre il coprimosetto **E** ed effettuare i collegamenti.

ATTENZIONE: I cavi devono essere sguainati fino a filo muro ed introdotti come indicati in **F** (a sinistra i cavi provenienti dall'alimentatore e a destra quelli relativi alle funzioni di servizio).

Reinserire i coprimosetti e procedere al montaggio degli accessori. Effettuare la programmazione e la regolazione del posto esterno secondo quanto descritto nel "Manuale di programmazione". Rimontare la placcia frontale **B**.

Installazione da incasso

Murare la scatola d'incasso all'altezza desiderata tenendo conto del posizionamento dell'obiettivo della telecamera **D**. Far passare la tubazione con i conduttori d'impianto attraverso uno dei punti a rotura (**G** punto **A**).

Nella messa in opera della scatola d'incasso si potranno evitare possibili deformazioni utilizzando l'apposito distanziale in dotazione (**G** punto **B**).

Togliere la placcia frontale utilizzando la brugola in dotazione **B** (tranne per le versioni Metal), far passare i cavi di collegamento nell'apposito foro **H1** e posizionare la cornice nella scatola d'incasso **H**.

Appoggiare il posto esterno alla cornice e fissarlo in posizione semi-estratta **I**; estrarre i coprimosetti **E** ed effettuare i collegamenti.

ATTENZIONE: I cavi devono essere sguainati fino a filo muro ed introdotti come indicati in **F** (a sinistra i cavi provenienti dall'alimentatore e a destra quelli relativi alle funzioni di servizio). Terminati i collegamenti portare a contatto, tramite una leggera spinta verso l'alto, il posto esterno alla cornice **J**.

Reinserire i coprimosetti e procedere al montaggio degli accessori. Effettuare la programmazione e la regolazione del posto esterno secondo quanto descritto nel "Ma-

ENGLISH

General precautions

- Read the instructions carefully before beginning the installation and carry out the actions as specified by the manufacturer.
- The installation, programming, commissioning and maintenance of the product must be carried out only by qualified technical personnel, correctly trained with regard to respecting the regulations in force, including the implementation of accident-prevention measures and the disposal of packaging.
- Before carrying out any cleaning or maintenance operation, disconnect the device from the power supply.
- The equipment must be used solely for the purpose for which it was expressly designed.
- The manufacturer declines all liability for any damage as a result of improper, incorrect or unreasonable use.

Montaggio moduli pulsante

Inserire il modulo pulsante **L** facendo attenzione all'orientamento **N1**.

Per scrivere i nominativi degli utenti, rimuovere il vetrino **M** facendo particolare attenzione al verso di inserimento del vetrino **N1**.

Dimensions A

Wall mounting

Take off the front plate using the Allen key provided **B** (except for the Metal versions). With the plugs provided fix the entry panel **C** at the desired height respecting the positioning of the lens of the surveillance camera **D**. Push through pipe **C1**, take off the terminal cover **E** and make the connections.

WARNING: The wires must be uncovered until flush with the wall and inserted as shown in **F** (on the left the wires coming from the power supply and on the right those relating to service functions). Remove the stopper protecting the connector **O1** (DNA-DNA ME) or **P1** (DRFID) and assemble any accessories **O** and **P**.

ATTENTION: these modules must be installed in audio or video entry panels with the relative housing and not on push button panels.

Wall mounting side by side

To wall mount entry panels side by side, horizontally or vertically, use a cutter to remove plastic pieces **Q1** and **2**. Pass the connection cables between the entry panel bases **R**, as shown in **S T**.

Recessed installation

Wall in the recessed box at the desired height, respecting the positioning of the lens of the surveillance camera **D**. Push the pipe with the system conductors through one of the breaking points (**G** point **A**).

When installing the recessed box any possible deformations can be avoided by using the spacer provided (**G** point **B**).

Take off the front plate using the Allen key provided **B** (except for the Metal versions), push the connection cables through the hole **H1** and position the frame in the recessed box **H**.

Rest the entry panel on the frame and attach it in a semi-pride position **I**; take off the terminal covers **E** and make the connections.

WARNING: The wires must be uncovered until flush with the wall and inserted as shown in **F** (on the left the wires coming from the power supply and on the right those relating to service functions).

Once the connections have been made, push the entry panel up slightly to meet the frame **J**.

Put the terminal covers back in and continue with assembling the accessories. Carry out the programming and adjustment of the entry panel as described in the "Programming Manual". Put the front plate back on **B**.

nuale di programmazione ". Rimontare la placcia frontale **B**.

Accessori K

- 1 Pulsante singola altezza DPS;
- 2 Pulsante doppia altezza DPH;
- 3 Pulsante doppio DPD;
- 4 Tappo altezza singola DTS (DTS ME);
- 5 Tappo altezza doppia DTH (DTH ME);
- 6 Modulo controllo accessi con tastiera DNA (DNA ME);
- 7 Modulo controllo accessi con lettore RFID DRFID;
- 8 Scatola d'incasso DS1;
- 9 Cornice da incasso DCI (DCI ME);
- 10 Tettuccio da parete DTP

Button modules assembly

Insert the button module **L** paying attention to the orientation **N1**.

To write the names of the users, remove the glass **M** paying particular attention to the direction the glass is inserted **N1**. The dimensions of the name cards are: 25x13x0,3 mm (DPD), 53x13x0,3 mm (DPS) and 53x30x0,3 mm (DPH).

Access control modules assembly

⚠ Assembly and removal must take place with no power to the entry panel.

Remove the stopper protecting the connector **O1** (DNA-DNA ME) or **P1** (DRFID) and assemble any accessories **O** and **P**.

WARNING: these modules must be installed in audio or video entry panels with the relative housing and not on push button panels.

haut, le poste externe et le cadre **I**.

- Remettre les cache-borne et procéder à l'installation des accessoires. Effectuer la programmation et le réglage du poste externe tel que cela est décrit dans le « Manuel de programmation ». Remettre la plaque avant **B**.

Accessoires K

- 1 Touche simple hauteur DPS ;
- 2 Touche double hauteur DPH ;
- 3 Touche double DPD ;
- 4 Bouchon simple hauteur DTS (DTS ME) ;
- 5 Bouchon double hauteur DTH (DTH ME) ;
- 6 Module de contrôle accès avec clavier DNA (DNA ME) ;
- 7 Module de contrôle accès avec lecteur RFID DRFID ;
- 8 Boîtier à encastrer DS1 ;
- 9 Cadre à encastrer DCI (DCI ME) ;
- 10 Visière murale DTP

Montage modules touche

Insérer le module touche **L** en veillant à l'orientation **N1**.

Pour écrire les noms des utilisateurs, retirer le verre **M** et faire attention au sens d'introduction du verre **N1**.

Dimensions A

Installation au mur

Retirer la plaque avant à l'aide de la clé mâle fournie **B** (sauf pour les versions Métal).

Utiliser les chevilles fournies pour fixer le poste externe **C** à la hauteur souhaitée, en tenant compte de la position de l'objectif de la caméra **D**. Faire passer le tuyau avec **C1**, retirer le cache-borne **E** et effectuer les branchements.

Montage modules contrôle accès

⚠ L'installation ou le retrait doivent avoir lieu avec le poste externe hors tension.

Retirer la plaque avant à l'aide de la clé mâle fournie **B** (sauf pour les versions Métal).

Retirer la plaque avant à l'aide de la clé mâle fournie **B** (sauf pour les versions Métal).

Retirer la plaque avant à l'aide d'un cutter les éléments en plastique **Q1**, **2**. Faire passer le tuyau avec **C1**, retirer le cache-borne **E** et effectuer les branchements.
