Dimensional drawing (Dimensions in mm (inch))

- ① Polarized area 1 (linear polarization, polarization in the direction of the hatching): area must be polarized at least up to the dimensions specified in [...] brackets. Polarization can also extend to the edge.
- ② Polarized area 2 (linear polarization, polarization in the direction of the hatching; rotated 90° to polarization area 1)

Instruction for installation

- ① Pull off the carrier film and affix it to legend point 3, remove the inner tear-out
- ② Insert the polarizing filter in the inner cutout, orientation as shown

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
