

Ref. 9616 MDS CITY CLASSIC DIGITAL DISPLAY MODULE

DESCRIPTION

Display module of spare parts for inclusion in CityLine Classic door entry panels and MDS Digital System.

The digital display module lets you search and view in the list of residents (electronic directory) using the browser buttons (arrow keys), as well as providing communication status information.

House calls can be made in two ways:

- by entering the corresponding code assigned to the home + the "bell" key.
- by finding the code in the electronic user directory (browser buttons) and pressing the "bell" key.

City Classic is the "continuous profile" outdoor panel line for buildings.

The PANELS are manufactured in anodized aluminum, highly resistant to rough weather and climate changes.

The panel design stands out for its curved-convex profile. A cellular rubber airtight seal included assures a perfect panel-to-wall fit to prevent water filtrations.

Available in several colours: aluminum, golden or bronze and white.

TECHNICAL SPECIFICATIONS
