

The first two items are related to the fact that the model is based on a single point estimate of the mean value of the response variable. This means that the model does not take into account the variability of the response variable. The third item is related to the fact that the model is based on a single point estimate of the standard deviation of the response variable. This means that the model does not take into account the variability of the standard deviation of the response variable.

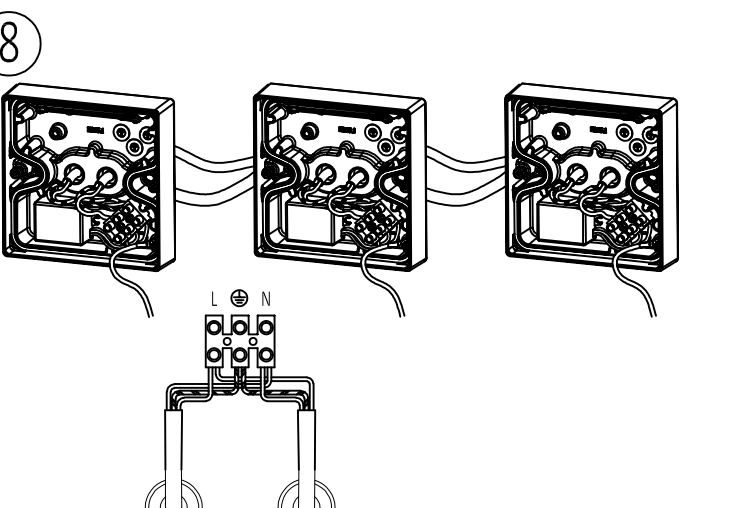

5. Eine unerlaubte Entsorgung der genannten Abfälle wird gesetzlich bestraft.
