

PULSED OR CONTINUOUS SOUND MODULE COMPLETE WITH COVER. Ø70MM, 230...240VAC, PULSED (78DB) OR CONTINUOUS (75DB) SOUND. IP65 PROTECTION. GREY

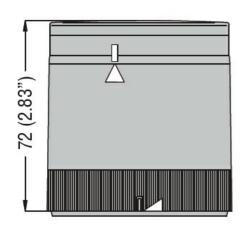

Product designation

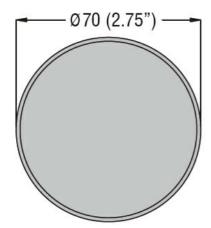

Signal tower Ø70mm/2.75" 8LT7S - Sound

Product type designation

				modules
General characteristics				
Diameter		n	nm - inch	70 / 2.75
Supply voltage (AC)			V	230240
Colour				Grey
IEC degree of protection	on			IP65
Sound module consumption (AC)			mA	30
Sound intensity			dB	75
Mechanical features				
Tightening torque for terminals max			Nm	0.5
Terminals screw				Screw clamp terminals
Conductor section				
	AWG/Kcmil			
		max		16
	IEC			
		max	mm²	1.5
Weight			g	240
Ambient conditions				
Temperature				
	Operating temperature			
		min	°C	-20
		max	°C	+50
Dimensions				

PULSED OR CONTINUOUS SOUND MODULE COMPLETE WITH COVER. Ø70MM, 230...240VAC, PULSED (78DB) OR CONTINUOUS (75DB) SOUND. IP65 PROTECTION. GREY

## Wiring diagrams

Connect terminals C and 1 as indicated to power the first module. If other modules are fitted, the respective terminals must be connected accordingly.

## Certifications and compliance

Compliance

CSA C22.2 n°14

IEC/EN 60947-1

IEC/EN 60947-5-1

**UL508** 

PULSED OR CONTINUOUS SOUND MODULE COMPLETE WITH COVER. Ø70MM, 230...240VAC, PULSED (78DB) OR CONTINUOUS (75DB) SOUND. IP65 PROTECTION. GREY
