

U-OS-CODESYS-Communication XXL**Weidmüller Interface GmbH & Co. KG**

Klingenbergstraße 26

D-32758 Detmold

Germany

www.weidmueller.com**Illustration du produit**

u-OS is truly open and connects ecosystems. At its core, it's a compilation of open source technologies and de facto standards. When selecting technology blocks, our objective is to preserve the independence of the users. u-OS supports the usage of Apps provided by 3rd party suppliers or Weidmüller and its IIoT partner network. Or implement customised Apps as e.g. a (Docker) container. You don't limit yourself and have full flexibility. More independence. Simplified. u-OS
